LIVE MORE VESPA

Vespa is a way of being and a state of mind, besides being a means of transport.

It embodies the approach to a spontaneous and young life typical of Vespa, that leads you to do everything that crosses your mind but in the Vespa way: with elegance, joy, style and healthy fun. Because if you have a Vespa, you can be yourself without thinking too much, just get on and go wherever you want, when you want. Do you feel it's the right moment? Off you go!

Vespa is the coolest way to make the most of your journeys because it is the vehicle that takes you to new and fascinating experiences that always give you something more. More than you expect, more than you think you know, more than you are used to living.

Now more than ever, be Vespa in everything you do.

VESPA SPRINT

50 / 125

Heir to Vespas of the Sixties, small, nippy and cutting-edge, it boasts the same spark of energy and youthful appeal. Its technical and technological reliability make for a pleasurable, carefree ride. Vespa Sprint is easy to handle and stable thanks to its small, protective body and large 12" wheels with alloy rims, while its bold style is enhanced with a distinctive rectangular headlight. The i-get 4-stroke, 3-valve single-cylinder engine, the perfect balance between performance and consumption, ensures an agile ride. The lights adopt LED technology, while Bike Finder and remote saddle opening are fitted as standard on the 125 cc model.

VESPA SPRINT S

50 / 125 / 150

The gutsiest small body in the range pushes that Vespa sports spirit to an extreme. In keeping with digital evolution, Vespa Sprint S offers a futuristic riding experience thanks to a full colour TFT multifunction display (only with the 125 and 150 cc) that provides vehicle status information. The latest-generation engine is the secret to nippy riding in traffic and comfort on long-range trips, and also ensures efficient consumption. An exclusive saddle enhances the sports look of the vehicle, with its dedicated colours and graphics. The VESPA MIA system, accessed via the 4.3" full colour TFT display, allows for complete, interactive communication between rider and vehicle. Thanks to the Bluetooth connection and dedicated Vespa app, available for download in the App Store or Google Play, the display becomes an extension of the smartphone and allows the rider to answer calls, view message notifications, activate voice commands and select music playlists.
